

SAMPARK GLOBAL

BRIEF COMPANY PROFILE

- ✓ **Sampark Global Logistics** was established in 1997 with the mind set to become the market leader as a service provider specially by Air/Train.
- ✓ **Sampark Global** is a new initiative taken in year 2012 to segregate Air and Train business from Sampark Group as separate arm for premium freight.
- ✓ We have now diversified in Road Business also with services like Express GTA, PTL & FTL.
- ✓ We have been in the business with excellent quality service record for the past 20 years. We are a company which you can rely upon with complete trust and faith.
- ✓ The company made a humble beginning with 7 branches PAN India.
- ✓ The foundation of the company was laid with a mission to provide Express Cargo service to customers whose business was time sensitive and expanding month after month in both revenue and volume.
- ✓ **Sampark Global Logistics** is proud to have spread its wings in a short time with 42 self owned branches servicing all metros and mini metros and some remote locations. We are now a highly disciplined and service-oriented company.
- ✓ You can be rest assured that your goods are in safe hands and be assured of timely delivery when you use our service for the distribution of your urgent, time bound and high value consignments.
- ✓ The presence of **Sampark Global** in International market is not new. We have an old history and our renowned name in the International market.
- ✓ We have got collaborations with some of the giants in international market for air and ocean freight.
- ✓ **Sampark Global** and its worldwide alliance form an extensive transportation network that spans over four corners of the globe.

VISION & MISSION

The Vision and Mission of our Company in the year 2023-25 will be to cater all OEM customers under our umbrella serve as a roadmap for the company's future direction.

To achieve this vision, we are focusing on providing the best logistics service in the industry. This means providing the most accurate and up-to-date information on shipments, timely delivery of goods, and a personal touch when it comes to customer service. It also means investing in the latest technology to ensure that the company remains competitive and efficient.

The mission statement focuses on providing innovative solutions to logistics challenges. This means finding creative solutions to complex problems and investing in technology to ensure that the company is running optimally. Our focus is on building relationships and add all OEM customers and partners to ensure that the company is well-positioned for the future.

Proactive Shipment Tracking

Proactive shipment tracking is essential for any logistics company, as it allows to provide accurate and up-to-date information on shipments. By investing in the latest technology, such as digital tracking systems, we can ensure that all shipments are tracked in real-time, and that customers are kept informed throughout the entire movement of their shipments..

Additionally, we are investing in tools that allow us to monitor shipments and identify any potential issues before they become a problem. In this way we can prevent delays in shipments and minimize any potential losses due to delays.

Customized online portal where customers can track their shipments or an app that provides real-time updates on the status of their shipments.

Dedicated Logistics

We at Sampark had our dedicated logistics team which is essential that supports us to remain competitive in the industry. By investing more in dedicated logistics teams, we can ensure that our operations are running as efficiently as possible. This team is focused on providing the best customer service, while also staying on top of any potential issues that may arise.

International Logistics

International logistics is an essential part of any logistics business, as it allows companies to expand their operations to new markets. We are looking to expand into international markets need to invest in the latest technology, such as digital tracking systems, to ensure that their shipments are tracked in real-time.

In addition to investing in the latest technology, we also focus on building relationships with customers and partners in international markets and to provide the best customer service, while also staying on top of any potential issues that may arise.
